<p>Social Science  <i>(diversity, community roles, decision making, geography, history, and ecology)</i></p>	<p>Who is and Entomologist?  What is the bee’s job? All sorts of fruit and vegetables are pollinated by honey <b>bees</b>, such as broccoli and squash, apples and almonds. Pollination is not just <b>important</b> for the food we eat directly, it's vital for the foraging crops, such as field beans and clover, used to feed the livestock we depend on for meat.  How do bee’s help grow vegetables?</p>	

Physical Development	Bug Yoga Move like a bug	
Sensory	Bee Pollen Activity Freeze Bugs Balloon Bee's filled with flour Bugs in Spagetti Make Play dough bugs with pipe cleaners and straws for legs and antennes
